		While atomic radii are measured in Angstroms (10^-10 m), nuclear radii	
	94	are much smaller and are measured in femtometres (10^-15 m). This	
		unit is also named after a scientist, but whichever name you use, the	
		unit's short-form remains the same. Name him.	
		Lexulous, the First Internet Backgammon Server, FIFA Women's World	
	95	Rankings, the European Go Federation and for some time World of	
_		Warcraft all used a rating system created by a Hungarian-born	
		American physics professor. Name the rating system.	
		Jan Van Eyck and several other painters of the Flemish school were	
	96	based in which Belgian city, often referred to as 'Venice of the North' -	
		also the subject of a film starring Colin Farrell written and directed by	
		Martin McDonagh?	
		In the 14th century Fa Ngum founded the state of La Xang - 'Kingdom	
	0.7	of the Million Elephants'. Over the course of time, it warred against	
	97	Ayutthaya, Myanmar and Vietnam (which controlled it from 1694 until	
		its 1707 partition). It regained its independence in 1954, when France	
		pulled out of Indochina. Which Southeast Asian nation?	
		A common Roman coin got its name from the Greek word for 'ten' and	
	98	gained popularity because of its similarity with an Arabic word meaning 'give'. The official currencies of eleven countries also have the same	
		origin. Which currency?	
Н —		What is the three-letter acronym for cars used in mostly suburban train	
	99	services where the car that carries passengers also has motive power?	
		A trans-boundary river is a river that crosses at least one international	
	100	border. With at least 58, which country has the greatest number of	
	*	these rivers?	
		This Austrian composer, later a renowned conductor of the New York	
		Philharmonic, was so superstitious about dying after his ninth	
		symphony (considering Beethoven, Schubert, and Bruckner had all	
	101	died after their Ninth Symphonies), he called his ninth Symphony -Das	
		Lied von der Erde meaning the Ninth and (incomplete) Tenth	
		Symphonies. Name this person whose wife later married Walter	
		Gropius?	
		The name of the São Paulo neighbourhood which is the home of the	
		Formula One Brazilian Grand Prix comes from the fact that the region	
	102	is located between two large reservoirs, Guarapiranga and Billings,	
		which were built in the early 20th century to supply water and electric	
		power to the city. Name it.	
		Fill an eleven-letter word into this response to a famous line: "Roger,	
	103	We copy you on the ground. You got a bunch of guys	
		about to turn blue. We're breathing again. Thanks a lot."	
		Forbes magazine called it one of the world's 10 ugliest buildings, while	
		others describe it as a "blob" and some have nicknamed it "The	
	104	Hemorrhoids". The building's design is supposed to represent a	
		smashed electric guitar and has a fusion of textures and colors,	
		including gold, silver, deep red, blue and a shimmering purple haze.	
		Which building?	
		The language of Silbo Gomero is special in that it is whistled, and not	
	105	spoken. Shepherds in the Canary Islands use this language to	
		communicate across long distances over rough terrain. What modern	
		day invention is driving this language to extinction?	
		What dance form from Mizoram that uses pairs of horizontal and cross	
	106	bamboo staves was originally intended to be performed for safe passage of the soul of a woman who died at childbirth but now is	
		performed at all occasions?	
	l	periornieu at aii occasions!	

MahaQuizzer 2010 - KQA

		The Junkers Ju-87 Stuka dive-bomber was one of the most recognizable symbols of the German Blitzkrieg. Some variants were	
	107	fitted with noise-making propellers to damage enemy morale by	
	107	enhancing the dive-bombing sound effects. They were nicknamed after	
		a destructive musical instrument from the Bible. What name?	
		The Smilodon is an extinct genus of predatory mammals. What was the	
	108	most distinguishing anatomical characteristic of this genus, which in	
		turn leads to the more common name by which this genus is known?	
		In 1852, India became the 10th country in the world and the first	
	109	country in Asia to issue postage stamps. These stamps were not	
	103	issued from Calcutta (the then capital) but from a province from the	
		other end of the country. Which province?	
	110	South Africa is the holder of the Rugby World Cup, which it won in	
	*	2007. After which pioneer is it named?	
_	111	Which city in Russia was the site of the largest tank battle in World War	
		Il and also costliest single day of aerial warfare?	
_	112	Which word from the business of insurance is a loan-translation from	
		Latin of the word 'subscribe'?	
		This budding director started his professional career as an advertising copywriter and then went to direct commercials for Horlicks, Promise	
	113	and the latest Coca Cola commercials. He won National Film Awards	
	113	for his first and second directorial ventures and his third and latest	
		venture is India's first commercial digital film. Who?	
		This species of bird is mentioned by Herodotus, Pliny the Elder and	
		Aristotle and has got the nickname 'crocodile bird' as it shares a unique	
	114	relationship with the crocodile, which does not hurt the bird because it	
		cleans the bits of meat in between the crocodile's teeth. Which bird that	
		also finds mention in Egyptian myth?	
		Vyasa, author of the Mahabharatha, is often referred to as	
	115	'Dwaipayana' in the texts. This gives us clues as to the kind of place he	
		could have hailed from. What does the word 'Dwaipayana' mean?	
		This inventor was influenced by The Age of Enlightenment in the early	
	440	18th century and is considered widely influential in bringing about the	
	116	British Agricultural Revolution. He was one of the early proponents of a	
		scientific and empirical approach to agriculture. However, he is	
		remembered today for a different reason. Name him (full name please). The phenomenon called fog (e.g. defined for pilots with visibility of 1km	
	117	or less) is known by a different name when visibility is better. What	
	117	name?	
		The third largest city in China is sometimes known by a romanized	
	118	name, a word also used to refer to the administrative divisions in	
		certain European countries. What name?	
		Which famous work by composer Maurice Ravel was commissioned by	
	119	Austrian pianist Paul Wittgenstein (the brother of the famous	
		philosopher), who had lost his right arm during World War I?	
		Fifteen winter sports events were part of the 2010 Winter Olympics.	
	120	They were divided into three categories: ice sports, alpine skiing +	
	**	snowboarding and The third category contained the biathlon,	
_		cross-country skiing, combined and ski jumping events. Fill the	
		common blank.	
	404	A Directory is a political system where there is no single head of state,	
	121	but instead a college of several men jointly exercise the powers of the	
		head of state. Name the only country that follows such a system today. Whose gravestone bears a pictogram of dot inside a circle, which is	
	122	, ,	
		essentially a trail sign for "I have gone home"?	

She is an indentation caused by a structural variation in the facial muscle zygomaticus major. Her daughter is a flickering gleam of light. Who is her part-time designer, one-time actress sister? Easy! Full name please. A country that has one of the highest GDP per capita in the world has a capital city whose name may have come from the Arabic for 'bay' or possibly 'sticky tree'. Which city that is famous for being an Asian Games venue and also for a series of trade negotiations? In Hindi/Urdu poetry the same word implies a self-contained rhyming couplet that usually gives us a moral. 125 What is the Turkish word for 'skewer'? The tiny island nation of Nauru acknowledges the vital role that compounds of an element play in its economy by incorporating the alchemical symbol in its coat of arms. Which element? Towards the start of her career in 1951, she was 'monstrously fat'. She managed to lose 36 kgs to become an 'astonishing, svette, striking woman'. Some believe that the loss of body mass made it more difficult for her to support her voice, while others said it produced a new softness and ferminality in her voice. Greece issued a 10 Euro coin on the 30th anniversary of her death in 2007. Who? Which spirit is produced from a mash made of grains like corn, malt and rye, distilled with juniper berries and various herbs and spices? In vertebrates, it is an area where nerves branch and rejoin. There are almost a hundred of them in the human body. A blow to the stomach results in the feeling of 'getting the wind knocked out of you' because it affects one such area, causing the diaphragm to spasm. What six-letter word? Charles-François Gounod, the French composer is most-famous for his Ave Maria as well as his operas Faust and Roméo et Juliette. In 1869, he composed the music for the silver jubilee of someone's ordination. This later became the National Anthem of which country? In 1958, Queen Elizabeth II made a call from Bristol Central Telephone Exchange to the Lord Provost of Edinburgh. Afterwards, she op

In 1958, Queen Elizabeth II made a call from Bristol Central Telephone Exchange to the Lord Provost of Edinburgh. Afterwards, she operated a switch which put 18,000 telephones connected to Bristol Central onto a new system. What did the Queen thus introduce to UK? Which Basu Chatterjee film of 1986 had the following cast: Deepak Kejiriwal as Juror #1, Amitabh Srivastav as Juror #2, Pankaj Kapur as Juror #3, S. M. Zaheer as Juror #6, M. K. Raina as Juror #7, K. K. Raina as Juror #8, Annu Kaporo as Juror #9, Subbiraj as Juror #10, Shailendra Goel as Juror #11 and Aziz Qureshi as Juror #12? The Indian variety of this tree is an endangered species and therefore very expensive. The Australian variety is decidedly inferior to the Indian variety, but its extract sell		124	A country that has one of the highest GDP per capita in the world has a capital city whose name may have come from the Arabic for 'bay' or possibly 'sticky tree'. Which city that is famous for being an Asian Games venue and also for a series of trade negotiations? In Hindi/Urdu poetry the same word implies a self-contained rhyming couplet that usually gives us a moral.	
The tiny island nation of Nauru acknowledges the vital role that compounds of an element play in its economy by incorporating the alchemical symbol in its coat of arms. Which element? Towards the start of her career in 1951, she was "monstrously fat". She managed to lose 36 kgs to become an "astonishing, svelte, striking woman". Some believe that the loss of body mass made it more difficult for her to support her voice, while others said it produced a new softness and femininity in her voice. Greece issued a 10 Euro coin on the 30th anniversary of her death in 2007. Who? Which spirit is produced from a mash made of grains like corn, malt and rye, distilled with juniper berries and various herbs and spices? In vertebrates, it is an area where nerves branch and rejoin. There are almost a hundred of them in the human body. A blow to the stomach results in the feeling of "getting the wind knocked out of you" because it affects one such area, causing the diaphragm to spasm. What six-letter word? Charles-François Gound, the French composer is most-famous for his Ave Maria as well as his operas Faust and Romée et Juliette. In 1869, he composed the music for the silver jubilee of someone's ordination. This later became the National Anthem of which country?
